

INDIA CONFERENCE ON INNOVATION, INTELLECTUAL PROPERTY AND COMPETITION

MARCH 30, 2018 | TAJ MAHAL HOTEL, NEW DELHI

In today's business environment, characterised by a knowledge-centric and intensely competitive approach, Innovation is critical to success and survival. Managing innovation at various stages in the value chain calls into play the various tools of the IP system. In short, right from producer to the end user, the role of Intellectual Property (IP) in relation to innovation is especially significant.

Panel Discussion on: Competition Economics, Growth and Innovation • Regulatory view on evolving Digital Litigation Landscape • Piracy and New Product Creation: A Bollywood Story • Innovation and Inequality - Lessons for India • Innovation at the Intersection of Technologies • Trade, Innovation and IPR - TRIPs+ and Beyond
